DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

- The primary reasons for allowance for claims 1-4 are the inclusion of an image recording apparatus comprising a second inkjet recording head recording an image that is sandwiched by a first layer having first undulations performed by a first printhead and a second layer, performed by the second printhead, having second undulations larger than the undulations by the first printhead.

It is these limitations either alone or combined as claimed that have not been taught, found, or suggested by prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Gothait (6,644,763) teaches a printing apparatus that utilizes a conventional inkjet head and a raised printing head to perform three-dimensional printing effects
- Yamamoto et al. (US 2003/0179270) teach a printing method that prints layers of UV-curable inks
